

## How is our team going to keep you safe?

*We have met and exceeded the guidance from our regulators to ensure your visit is safe during the pandemic*

1. Risk Assessments will be carried out before your arrival
2. All people entering the premises have to disinfect their hands
3. Your temperature will be checked at reception
4. Waiting area is closed, only one patient in the building at a time
5. Your treatment will be carried out in a room that has been fitted with air purification systems
6. Your clinical team will be wearing enhanced PPE, including respirators for some procedures
7. Treatments will be kept simple and short
8. All surfaces, including door handles, credit card machine, ipad/tablets will be disinfected between each patient entry/exit
9. Hand disinfecting on exit
10. Separate entrances and exits for patients
